<p>Limitations and Conditions</p>	<ol style="list-style-type: none"> 1. The installer must determine whether this change to the type certificate is compatible with previously approved configurations. 2. This certificate and associated data shall remain valid until surrendered, withdrawn, or otherwise terminated. 3. If transfer of this approval is requested this certificate will be re-issued. 4. This STC is valid for aircraft types and models approved by CAA and listed on the FAA Approved Model List No. SA02734LA dated 30 September 2020 or later approved revisions. 5. This STC covers provisions for installation only, the equipment for which these provisions are intended has not been CAA certified. An additional CAA approval is required for the installation of any equipment and must be evaluated to assure satisfactory compliance with the applicable airworthiness standards. 6. The equipment for which these provisions are intended are subjected to the limitations in the FAA approved Installation Instructions listed in the Approved Model List No. SA02734LA.

Statement of Approval

The Civil Aviation Authority certifies that the change to the type certificate listed above complies with the applicable airworthiness and environmental protection requirements specified subject to the limitations and conditions specified above.
